PPP Disputes, Renegotiation and Termination Training Course

Introduction

Over long PPP contracts, circumstances change: demand falls, costs rise, laws change or partners fail to perform. Many PPPs are renegotiated, and some end in disputes or early termination.

This course explains why PPPs run into difficulty, how to manage renegotiations transparently, how disputes are resolved and how termination and compensation work.

Learning Objectives

By the end of this course, participants will be able to:

- Understand why PPPs become distressed
- Manage renegotiation processes transparently
- Use dispute resolution mechanisms effectively
- Understand termination grounds and compensation
- Handle step-in and lender rights
- Learn from distressed PPP cases

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse distressed PPP cases and simulate a renegotiation.

Benefits for Your Organisation

- Better handling of troubled projects
