Board Governance for Non-Profit Organisations Training Course

Introduction

Strong boards are essential for non-profit organisations: they set direction, oversee finances and risk, support fundraising and protect the organisation's reputation. Weak governance is a common cause of failure and loss of donor trust.

This course explains the roles and responsibilities of non-profit boards, good governance practices, board structures and how boards and executives can work together effectively.

Learning Objectives

By the end of this course, participants will be able to:

- Understand the legal and ethical duties of non-profit boards
- Clarify the roles of the board and the executive
- Oversee strategy, finances and risk
- Support fundraising and stakeholder relations
- Build effective board structures and committees
- Evaluate and improve board performance

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants assess governance cases and review their own board practices.
