Building a DEI Strategy and Roadmap Training Course

Introduction

Organisations with diverse, inclusive workforces make better decisions, innovate more and attract stronger talent. Yet many diversity initiatives remain disconnected activities without clear goals or measurable impact.

This course shows HR and business leaders how to build a practical DEI strategy aligned with business goals, national workforce priorities and local culture, from assessment and goal setting to implementation, governance and measurement.

Learning Objectives

By the end of this course, participants will be able to:

- Explain the business case for diversity, equity and inclusion
- Assess the current state of DEI in an organisation
- Set clear, culturally appropriate DEI goals
- Design initiatives across the employee lifecycle
- Establish governance and leadership accountability
- Measure and report progress

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants assess a case organisation and build a DEI roadmap for their own workplace.

Benefits for Your Organisation

- A clear, credible DEI strategy
- Stronger talent attraction and retention
- Better decisions through diverse perspectives
- Alignment with national workforce goals

Benefits for You
