# Clinical Governance and Risk Management Training Course

## Introduction

Clinical governance is the framework through which healthcare organisations are accountable for continuously improving quality and safeguarding high standards of care. It brings together clinical effectiveness, risk management, audit, credentialing and patient involvement.

This course explains how to establish and run clinical governance and clinical risk management systems.

## Learning Objectives

By the end of this course, participants will be able to:

- Understand the components of clinical governance
- Establish governance structures and committees
- Manage clinical risks
- Conduct clinical audits
- Manage credentialing and privileging
- Report clinical governance performance

## Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants assess governance frameworks and design a clinical audit.

## Benefits for Your Organisation

- Clear accountability for clinical quality
- Reduced clinical risk
- Better clinical outcomes
- Readiness for regulatory review

## Benefits for You

- Clinical governance knowledge
- Risk and audit tools
- Committee and reporting skills
- Leadership capability

## Who Should Attend

This course is designed for:

- Medical directors and clinical leaders

- Quality and risk managers
- Nursing directors
- Hospital executives
- Healthcare regulators

## Course Outline
