Anti Money Laundering (AML) Compliance Training Course – Basics

Introduction

Money laundering is the process by which criminals convert "dirty" money from illicit sources into "clean" money, making it appear legally accessible and taxable. This course addresses how financial institutions (FIs) are required to have a multifaceted compliance program to detect and counteract money laundering and related predicate crimes, such as terrorism funding. The course will empower participants to understand and tackle regulatory mandates and demonstrate compliance readiness.

Learning Objectives

By completing the Anti-Money Laundering (AML) Compliance Certification Course with Xcelerate Training Institute, participants will:

- Describe the need for anti-money laundering measures in financial institutions.
- Understand the domestic and international mechanisms for detecting and countering money laundering and related crimes.
- Comprehend anti-money laundering regulations as prescribed by local regulatory organizations.
- Align compliance goals with daily operations and promote vigilance.
- Foster a culture of compliance to detect and report suspicious activities.
- Interpret regulatory compliance circulars and government notices.
- Review and implement compliance-supporting mechanisms to avoid regulatory penalties.
- Develop AML/KYC risk management strategies for an effective compliance program.
- Create a supportive mechanism for responding to regulatory requests and demands.
