Cash Flow and Working Capital Management Training Course

Introduction

Working capital management involves monitoring cash flow, current assets, and current liabilities through ratio analysis. This includes evaluating elements of operating expenses, such as the working capital ratio, collection ratio, and inventory turnover ratio. The four key components of working capital are trade receivables, inventory, cash and bank balances, and trade payables.

Learning Objectives

Upon completing the Cash Flow and Working Capital Management course, participants will:

- Clearly define working capital.
- Assess working capital adequacy and liquidity.
- Identify risks from poor working capital management.
- Study key liquidity ratios to understand a business's working capital position.
- Practice techniques to enhance working capital management.

Training Methodology

This collaborative training program includes:

- Lectures
- Seminars & Presentations
- Practice on cash flow statements
- Review of topical articles on cash flow analysis
- Group syndicate work
- Assignments
- Case Studies & Functional Exercises Xcelerate Training Institute uses the ‘Do-Review-Learn-Apply’ model for practical and interactive learning.

Benefits for Your Organisation

Organizations will benefit from:

- Increased awareness and responsiveness towards working capital and cash management.
- Enhanced ability to apply best practices in working capital management.
- Improved working capital performance.
- Increased liquidity to pursue strategic goals.

Benefits for You

Participants will gain:

- Understanding of various techniques used to manage working capital.
- Insights into supply chain aspects, including commercial terms, discount structures, and payment

scenarios.
- Knowledge to reduce work in progress and avoid stock liabilities.
- Skills to monitor, validate, and analyze stock.
- Understanding of the demand chain, including commercial terms and credit rating agencies.

Who Should Attend

This course is suitable for:

- Accountants involved in reporting and recording working capital accounts.
- Business managers responsible for managing the cash operating cycle.
- Finance professionals working in the treasury function.
- Business owners analyzing the cash operating cycle.
