Coaching and Mentoring Skills Training Course

Introduction

Introduction

Mentoring is a relationship between an experienced person (Mentor) who is willing to share his/her knowledge, skills and expertise and an energized individual (Mentee) who is open & willing to learn and grow within a specific area/domain.

Whereas Coaching is unlocking and revealing a person's potential to maximize their own performance. Coaching aims to develop and improve performance and establishes focus on the present rather than on the distant past or future.

Mentoring and Coaching is the guidance, direction given by a mentor or coach. A mentor influences the personal & professional growth of a mentee.

Mentoring & Coaching helps people in becoming more effective at work and in personal life, learn new skills, develop greater confidence, and make better decisions for overall personal and professional growth. It also gives immense satisfaction to mentors & coaches and the opportunity to work on their own leadership style, communication skills and other critical behavioral/leadership competencies.

This Coaching & Mentoring Skills Course by Xcelerate Training Institute will provide you with in-depth knowledge about various key aspects of Coaching & Mentoring so that you can design, develop & execute holistic coaching & mentoring process in your organization. It will also help in preparing yourself to become a better mentor or coach.
