Project Finance Training Course

Introduction

Introduction

Projects are planned in any organization to meet the strategic objective of the organization. When an organization makes any investment, it is done keeping in mind that maximum return on investment is received. This becomes very important for the project team to understand the concepts of Project finance which would help them to manage the project better.

This Xcelerate Training Institute course will enhance your knowledge on Project Finance. This course is designed to cover all the aspects of Finance related to projects and project management beginning from initiation to close out of the project.

Learning Objectives

- Understand the importance of projects to the organizational strategy
- Familiarize about how the project cost is calculated and managed during the project life cycle
- Understand the different methods used to calculate and estimate the cost of the project
- Work on methods to understand how the price is calculated for a project and how is it different than the cost of the projects
- Different types of Contracts and their impact on the cost
- Acquire the knowledge of monitoring the actual cost of the project
- Clarify the concepts of Earned Value Analysis
- Methods of Forecasting the project cost
- The best way of communication to be carried out by the project team

Training Methodology

Xcelerate Training Institute Solutions appoints experienced trainers from relevant domains to deliver the training with the help of audio-visual presentations. Since Xcelerate Talent Solutions lays great stress on bespoke training solutions, the course content is thoroughly examined by the trainers before each session to check the relevance to the training audience.

Trainee participation through group activities, tasks, role-plays and case study discussions form an integral part of the training program. Experiential learning is also given equal significance within the format of training.

Benefits For Your Organization

- The team will understand that the project they are working on is linked to the strategic objective of the organization
- The preparation of project cost will be transparent, and the project team will also be involved in the same
