Project Management (PMBOK) Training Course

Introduction

Introduction

This Project Management Certification (PMBOK) course is designed as an integrated training program for the management of projects as per the standards set Globally. These standards will enable delegates who are interested in improving the project management methodology.

PMBOK stands for Project Management Book of Knowledge, which is a manual published by the Project Management Institute. It contains a set of terminologies and guidelines for project management. It also includes established traditional practices as well as emerging practices related to project management, with wide consensus of their value and usefulness.

One often wonders—what is PMBOK? What is it required for? Besides providing best practice guidance on project management, PMBOK helps organizations standardize their project management process across departments; assists individuals follow standard practices across organizations, thus adjusting to managing projects successfully regardless of the organization or nature of the project, and helps some with decision making when in doubt.

The activities described therein span across the entire project life cycle (from start to end) into five process groups of initiating, planning, executing, monitoring and controlling and closing.

It covers 10 main knowledge areas important to understand the basics of project management. The book also discusses project constraints and ways to deal with them. This book has evolved over time and has many versions.

This Xcelerate Training Institute course will empower you with complete knowledge and information as well as experience of project management according to PMBOK 2012.

By undertaking this Project Management Certification course, you will be able to successfully handle all aspects of project management, from project integration management to stakeholder management, and effectively manage and overcome all project constraints related to scope, quality, schedule, budget, resources and risks.
