ESG for Boards and Senior Leaders Training Course

Introduction

Boards are increasingly accountable for how their organisations manage environmental, social and governance issues. New reporting rules, investor scrutiny and climate risks mean ESG is now part of strategy, risk and reputation, not just corporate social responsibility.

This programme helps board members and senior leaders understand their ESG responsibilities, oversee climate and sustainability risks, approve credible strategies and disclosures, and avoid greenwashing.

Learning Objectives

By the end of this course, participants will be able to:

- Understand ESG, climate risk and sustainability reporting trends
- Define board and executive responsibilities for ESG
- Oversee ESG strategy, targets and performance
- Review sustainability disclosures and avoid greenwashing
- Integrate ESG into risk management and remuneration
- Ask the right questions of management and advisers

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Briefings are combined with board case studies and a facilitated discussion on participants' own organisations.

Benefits for Your Organisation

- Effective ESG governance at board level
- Credible, compliant sustainability disclosures
- Better management of climate and reputational risk
- Improved investor and stakeholder confidence
