Infrastructure Asset Recycling and Privatisation Training Course

Introduction

Governments are increasingly using privatisation, asset monetisation and asset recycling to unlock capital from existing infrastructure and reinvest it in new projects. Saudi Arabia's privatisation programme and similar initiatives across the region have accelerated this trend.

This course explains the options for privatising and monetising public assets, how transactions are prepared and executed, and how to protect public interest through regulation and contracts.

Learning Objectives

By the end of this course, participants will be able to:

- Understand privatisation and asset monetisation options
- Assess assets for privatisation readiness
- Value public assets and structure transactions
- Design regulatory and contractual safeguards
- Manage stakeholder and workforce issues
- Reinvest proceeds through asset recycling

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse regional privatisation transactions and assess a sample asset.

Benefits for Your Organisation

- Capital released for new investment
- Improved efficiency of public services
- Protected public interest
- Well-prepared transactions

Benefits for You

- Knowledge of privatisation methods
- Transaction preparation insights
- Understanding of valuation
- Strategic infrastructure finance perspective

Who Should Attend

This course is designed for:

- Privatisation and PPP officials
- Ministry of finance staff
- Sovereign fund and investment professionals
- Infrastructure owners and operators
- Advisers and investors

Course Outline

Day 1: Privatisation and Monetisation

- Privatisation objectives and methods
- Regional privatisation programmes
- Asset recycling concept
- Concessions, leases and sales
- Readiness assessment

Day 2: Transactions

- Asset valuation
- Transaction structures
- Investor marketing and processes
- Regulatory safeguards
- Workforce and stakeholder issues

Day 3: After the Transaction

- Regulation and performance monitoring
- Reinvesting proceeds
- Lessons from case studies
- Risks and public perception
