Healthcare Finance and Revenue Cycle Management Training Course

Introduction

Healthcare providers face rising costs, growing insurance coverage and new payment models. Effective financial management and revenue cycle management are essential to remain sustainable while delivering quality care.

This course covers healthcare costing, budgeting, revenue cycle management, insurance and claims, denials management and financial performance indicators.

Learning Objectives

By the end of this course, participants will be able to:

- Understand healthcare financing and payment models
- Apply costing and budgeting in healthcare
- Manage the revenue cycle from registration to payment
- Reduce claim denials and leakage
- Use financial indicators to manage performance
- Understand value-based care models

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse revenue cycle data and identify improvement opportunities.
