Infection Prevention and Control Management Training Course

Introduction

Healthcare-associated infections harm patients, increase costs and damage trust. Effective infection prevention and control programmes rely on strong policies, surveillance, staff compliance and leadership.

This course covers the management of infection prevention and control programmes, including standard precautions, surveillance, outbreak management, antimicrobial stewardship and compliance monitoring.

Learning Objectives

By the end of this course, participants will be able to:

- Understand infection prevention and control principles
- Implement standard and transmission-based precautions
- Run infection surveillance programmes
- Manage outbreaks effectively
- Support antimicrobial stewardship
- Monitor compliance and lead improvement

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants review surveillance data and work through outbreak scenarios.

Benefits for Your Organisation

- Fewer healthcare-associated infections
- Safer patients and staff
- Accreditation compliance
- Lower costs

Benefits for You

- Infection control management skills
- Surveillance and audit techniques
- Outbreak management knowledge
- Leadership confidence

Who Should Attend

This course is designed for:

- Infection control practitioners

- Nurse managers
- Quality and patient safety staff
- Facility and environmental services managers
- Clinical leaders

Course Outline

Day 1: Principles and Precautions

- Chain of infection
- Standard precautions and hand hygiene
- Transmission-based precautions
- Environmental cleaning
- Sterilisation and disinfection

Day 2: Surveillance and Outbreaks

- Surveillance methods
- Infection indicators
- Outbreak investigation
- Outbreak response
- Reporting requirements

Day 3: Programme Management

- Antimicrobial stewardship
- Compliance audits
- Staff training
- Infection control committees
- Action plan
