Food and Beverage Management Training Course

Introduction

Food and beverage operations are a major source of revenue and guest satisfaction in hotels, resorts, venues and restaurants. Managers must balance quality, service, food safety and cost control.

This course covers food and beverage management: concept development, menu engineering, service standards, cost control, food safety, banqueting and team leadership.

Learning Objectives

By the end of this course, participants will be able to:

- Understand food and beverage operations
- Develop concepts and menus
- Apply menu engineering and pricing
- Control food and labour costs
- Maintain food safety and hygiene standards
- Lead service teams

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants complete menu engineering and cost control exercises.

Benefits for Your Organisation

- Higher profitability
- Consistent service quality
- Food safety compliance
- Improved guest satisfaction

Benefits for You

- F&B management skills
- Cost control tools
- Menu engineering knowledge
- Leadership confidence
