Manpower Planning Training Course

Introduction

Introduction

The importance and utility of Manpower planning cannot be denied by any- be it at the National level by the central government, or at the state level by the state governments, by the industries- whether it is a big or mid-size or a smaller industrial business unit.

So, what is Manpower Planning? It is a consistent process to ensure the availability of the right number of people, and the right skilled available at the right time for working on a project or complete the task assigned. By joining this course, you will gain an insight into how to address the manpower needs keeping in view the future predictions of business and the changing trends in technology.

This course on Manpower Planning by Xcelerate training institute will help you examine the current thinking and recent developments related to human resource manpower planning. It will help you understand how to forecast staffing needs and work with the Head of Departments (HOD) and the company managers to ensure that each business unit/department is properly staffed.
