Facilities Management Training Course

Introduction

As major developments in the Gulf move from construction into operation, demand is growing for professionals who can run buildings, campuses, hospitals, hotels and infrastructure efficiently. Facilities management covers maintenance, services, energy, safety, contracts and the occupant experience.

This course provides a complete foundation in modern facilities management, aligned with ISO 41001, covering strategy, hard and soft services, maintenance planning, outsourcing, performance measurement, energy and sustainability, and smart building technology.

Learning Objectives

By the end of this course, participants will be able to:

- Explain the scope and strategic role of facilities management
- Apply ISO 41001 principles to FM organisations
- Plan maintenance and manage hard and soft services
- Manage FM contracts, service levels and outsourcing
- Improve energy performance and sustainability
- Use technology and data to run smarter facilities

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse FM case studies and develop a service delivery plan for a sample facility.

Benefits for Your Organisation

- Lower operating and lifecycle costs
- Reliable, safe and compliant facilities
- Better contractor performance
- Improved occupant and customer satisfaction
- Progress on energy and sustainability goals

Benefits for You

- Comprehensive FM knowledge
- Practical tools for contracts and maintenance planning
- Understanding of ISO 41001
- Career opportunities in a growing sector
- Ability to lead FM teams

Who Should Attend

This course is designed for:

- Facilities and property managers
- Maintenance and operations managers
- Building and asset managers
- FM contract managers
- Engineers moving into operations roles

Course Outline

Day 1: Facilities Management Foundations

- Scope and value of facilities management
- FM strategy and organisation
- ISO 41001 overview
- Stakeholders and the occupant experience
- FM market trends in the Gulf

Day 2: Hard Services and Maintenance

- Building systems: HVAC, electrical, plumbing and fire
- Planned, preventive and reactive maintenance
- Maintenance planning and scheduling
- Computerised maintenance management systems
- Lifecycle and asset replacement planning

Day 3: Soft Services and Contracts

- Cleaning, security, catering and support services
- Outsourcing models
- Writing FM specifications and service levels
- Procuring FM services
- Managing contractor performance

Day 4: Safety, Energy and Sustainability

- Health, safety and fire compliance
- Energy management and efficiency
- Water and waste management
- Green building ratings
- Business continuity

Day 5: Smart FM and Performance

- Smart buildings and IoT
- Digital twins and data analytics
- FM key performance indicators
- Budgeting and cost control

- Action plan
