Hospital and Healthcare Management Training Course

Introduction

Healthcare systems in the Gulf are undergoing major transformation, with new hospitals, privatisation, health clusters and digital health services. Healthcare leaders must balance quality, patient safety, access and cost in a complex, regulated environment.

This course provides managers with practical tools for leading healthcare organisations: strategy, operations and patient flow, quality and accreditation, patient experience, finance, workforce and digital health.

Learning Objectives

By the end of this course, participants will be able to:

- Understand healthcare system trends and transformation in the Gulf
- Apply strategic and operational management to hospitals
- Improve patient flow and service efficiency
- Lead quality, patient safety and accreditation programmes
- Manage healthcare finances and performance
- Lead healthcare teams and digital transformation

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse hospital case studies and develop improvement plans for real healthcare challenges.
