Workforce Nationalisation Strategy (Saudisation, Emiratisation) Training Course

Introduction

Workforce nationalisation programmes such as Saudisation, Emiratisation and Omanisation set targets for national employment across sectors, with incentives for compliance and penalties for shortfalls. Meeting targets in a way that genuinely builds capability requires a clear strategy, not just recruitment.

This course explains current nationalisation requirements and shows HR and business leaders how to plan, attract, develop and retain national talent, and how to turn nationalisation into a source of long-term competitive advantage.

Learning Objectives

By the end of this course, participants will be able to:

- Understand nationalisation programmes, targets and incentives in the Gulf
- Assess the organisation's current position and gaps
- Develop a nationalisation workforce plan
- Attract and select national talent effectively
- Design development and career programmes for nationals
- Improve retention and measure results

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse regional case studies and prepare a nationalisation plan for their organisation.
