Contract Negotiation and Risk Allocation Training Course

Introduction

The commercial value of a contract is decided at the negotiating table. Price matters, but so do liability caps, payment terms, warranties, termination rights and the allocation of risk between the parties.

This course combines negotiation skills with contract knowledge. Participants learn how to prepare a contract negotiation, prioritise terms, understand risk from both sides and reach balanced agreements that hold up during delivery.

Learning Objectives

By the end of this course, participants will be able to:

- Prepare contract negotiations with clear objectives and limits
- Identify and prioritise the key risk clauses
- Understand risk allocation from both parties' perspectives
- Use negotiation techniques to trade terms and concessions
- Handle difficult tactics and deadlocks
- Document agreed positions accurately

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants negotiate full contract cases in pairs and teams, with debriefs on terms and tactics.

Benefits for Your Organisation

- Better-balanced contracts and lower risk exposure
- Stronger commercial outcomes
- Fewer disputes during delivery
- Consistent negotiation positions

Benefits for You

- Practical negotiation frameworks for contracts
- Understanding of key risk clauses
- Experience through realistic simulations
- Greater confidence with counterparties

Who Should Attend

This course is designed for:

- Contract and commercial managers

- Procurement and sales professionals
- In-house lawyers
- Project and business development managers
- Senior managers approving contracts

Course Outline

Day 1: Preparing the Negotiation

- Contract negotiation as value creation
- Objectives, priorities and walk-away points
