Legal Aspects of Government Contracts Training Course

Introduction

Government contracts follow special rules that differ from ordinary commercial contracts: public tendering laws, standard conditions, the government's right to vary or terminate, and strict requirements for transparency and accountability.

This course explains the legal framework for government contracts in the Gulf and internationally, from tendering and award to performance, variations, penalties, termination and disputes, for both public officials and private contractors.

Learning Objectives

By the end of this course, participants will be able to:

- Explain the legal framework of government contracting
- Understand tendering laws and award procedures
- Apply the special powers of the contracting authority
- Manage variations, delays and penalties lawfully
- Handle termination and claims against government entities
- Promote integrity and prevent corruption in public contracts

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse government tender documents and contract scenarios from the region.

Benefits for Your Organisation

- Lawful, transparent public contracting
