Financial Management for NGOs and Donor-Funded Projects Training Course

Introduction

Donors expect non-profits to manage funds transparently and report accurately. Weak financial management can lead to disallowed costs, failed audits and lost funding.

This course covers practical financial management for NGOs and donor-funded projects: budgeting, fund accounting, cost allocation, internal controls, procurement compliance, financial reporting and audits.

Learning Objectives

By the end of this course, participants will be able to:

- Prepare project and organisational budgets
- Apply fund accounting and restricted fund principles
- Allocate shared and indirect costs correctly
- Design internal controls to prevent fraud and errors
- Prepare donor financial reports
- Prepare for audits and donor reviews

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants build project budgets and donor reports using spreadsheet exercises.

Benefits for Your Organisation
