Sustainable and ESG-Aligned PPPs Training Course

Introduction

Investors, lenders and governments increasingly expect infrastructure projects to meet environmental, social and governance standards and contribute to climate goals. PPPs can drive sustainability through long-term performance requirements and incentives.

This course shows how to integrate ESG and climate considerations into PPP project selection, design, procurement, contracts and monitoring.

Learning Objectives

By the end of this course, participants will be able to:

- Understand ESG expectations for infrastructure
- Integrate sustainability into PPP project selection
- Include climate resilience and emissions requirements
- Apply environmental and social safeguards
- Use green and sustainability-linked finance for PPPs
- Monitor and report ESG performance

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants review sustainable PPP case studies and add ESG requirements to a sample PPP.

Benefits for Your Organisation

- Infrastructure aligned with climate goals
- Access to green and sustainable finance
- Lower environmental and social risks
- Stronger public support

Benefits for You

- Knowledge of sustainable infrastructure
- Practical ESG tools for PPPs
- Understanding of green finance
- Future-oriented PPP expertise

Who Should Attend

This course is designed for:

- PPP and infrastructure officials

- Sustainability managers
- Project developers and investors
- Lenders and advisers
- Environmental and social specialists

Course Outline

Day 1: Sustainable Infrastructure

- ESG and climate goals for infrastructure
- Sustainable infrastructure standards
- Climate resilience
- Social impacts and inclusion
- Investor expectations

Day 2: Integrating ESG into PPPs

- Project selection and appraisal
- Output specifications with sustainability requirements
- Environmental and social safeguards
- Incentives and penalties
