Marketing Analytics and Customer Insights Training Course

Introduction

Marketing generates large amounts of data from websites, social media, campaigns, CRM and sales. Marketers who can analyse this data understand customers better and invest budgets where they deliver the most return.

This course teaches practical marketing analytics: data sources, customer segmentation, campaign measurement, attribution, customer lifetime value and dashboards, using spreadsheets and analytics tools.

Learning Objectives

By the end of this course, participants will be able to:

- Identify and combine marketing data sources
- Segment customers using data
- Measure campaign performance
- Understand attribution models
- Calculate customer lifetime value and retention
- Build marketing dashboards and insight reports

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse marketing datasets and build a marketing dashboard.

Benefits for Your Organisation

- Data-driven marketing decisions
- Better return on marketing spend
- Deeper customer understanding
- Clear reporting to management

Benefits for You

- Practical analytics skills
- Dashboard templates
- Customer insight techniques
- Strong data skills for marketing careers
