Healthcare Supply Chain and Pharmacy Management Training Course

Introduction

Hospitals depend on a reliable supply of medicines, medical devices and consumables. Shortages, waste and poor inventory control affect patient safety and costs.

This course covers healthcare supply chain and pharmacy management: procurement, inventory, cold chain, medication management, formulary management and performance measurement.

Learning Objectives

By the end of this course, participants will be able to:

- Understand the healthcare supply chain
- Procure medicines and medical supplies effectively
- Manage inventory and reduce waste
- Maintain cold chain and storage standards
- Apply medication management and safety principles
- Measure supply chain performance

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants analyse inventory data and design supply chain improvements.

Benefits for Your Organisation

- Reliable availability of supplies
- Lower inventory costs and waste
- Safer medication management
- Better supplier performance

Benefits for You

- Healthcare supply chain skills
- Inventory management tools
- Medication management knowledge
- Analytical skills

Who Should Attend

This course is designed for:
