Decision Making Under Uncertainty Training Course

Introduction

Leaders must often decide quickly with incomplete information, uncertain outcomes and competing priorities. Good decision makers use structured methods, understand risk and avoid common biases.

This course provides practical tools for decision making under uncertainty: framing decisions, analysing options, assessing risk, using scenarios, involving others and learning from outcomes.

Learning Objectives

By the end of this course, participants will be able to:

- Frame decisions clearly
- Analyse options and trade-offs
- Assess risk and uncertainty
- Use scenarios and decision trees
- Avoid cognitive biases
- Make and communicate decisions confidently

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants apply decision tools to complex business cases and their own decisions.

Benefits for Your Organisation

- Better-quality decisions
- Faster decision making
- Reduced risk of costly mistakes
- More confident leaders

Benefits for You

- Structured decision-making tools
- Risk and scenario skills
- Awareness of bias
- Greater decision confidence

Who Should Attend

This course is designed for:

- Managers and senior leaders
- Project managers

- Strategy and planning professionals
- Risk managers
- Decision makers in any function

Course Outline

Day 1: Decision Foundations

- Types of decisions
