Leading Innovation and Agile Organisations Training Course

Introduction

Markets, technologies and customer expectations change faster than ever. Agile organisations respond quickly, experiment, learn and deliver value in short cycles, while innovative cultures encourage new ideas at every level.

This course helps leaders understand agile ways of working, lead innovation, empower cross-functional teams and build an organisation that adapts and innovates continuously.

Learning Objectives

By the end of this course, participants will be able to:

- Understand agile principles and ways of working
- Lead empowered, cross-functional teams
- Create a culture that encourages innovation
- Use experimentation and rapid learning
- Align agile teams with strategy
- Lead agile transformation

Training Methodology

This course combines short expert presentations with practical exercises, case studies from the Gulf and international organisations, group discussions and work with real templates and tools. Participants are encouraged to bring examples from their own work so that the learning can be applied immediately.

Participants experience agile methods through simulations and plan an agile initiative.
